PREFACE

Himachal Pradesh, “Crime Review-2013” is the sixth issue being published by State CID, SCRB. Efforts have been made to collect, present and analyze the data. Our endeavour was to make available maximum details by way of statistical tables, graphs/charts and brief interpretation wherever possible.

The job of data interpretation of crime is increasingly becoming important tool to forecast future trends for proper law enforcement and therefore, mere presentation of statistics does not serve the purpose anymore. It is our objective to collect accurate, meaningful and relevant statistics which would contribute towards formulation of focused Crime Control Policies in the State.

The Officers and the staff of State Crime Records Bureau, H.P have made significant contribution towards the preparation of this sixth issue of Crime Review because of which it has become possible to bring this sixth issue in such a comprehensive manner.

I am sure; this effort will go a long way in helping the police officers besides providing information to all stakeholders.

Crime against women has increased during the year 2013 in comparison to the previous year. This is due to the fact that in past the women usually hesitated to report the unfortunate incidents, which took place with them and also due to change of law. But now on account of increased awareness and change in social values, ethos, social reassurances being provided by the society, free registration of cases and Suvidha Yojna started by the HP, Police Department, Women are more often coming forward to report the offences taking place against them.

HP Police Department has initiated many steps in the recent years to ensure better Police response to the malaise. A Women Crime Unit has been constituted at State CID Hdqrs., Shimla to monitor as well as to ensure quick disposal of cases of crime against women. 2 AHTU's have also been established in Shimla & Kangra in first phase. No particular area is prone to the incidence of such crime in this state. No special organized gang is operative in the state to commit crime against women. MAP-6.2

PERSONS ARRESTED UNDER (SLL) CRIMES -2013

-CHAPTER-7

CRIME AGAINST WEAKER SECTIONS OF SOCIETY (SC/ST)

7.1 General:

A complete harmony among different sections of society is prevailing in the State. No particular area of the State is notorious for the commission of offences against the SCs/STs. However sporadic incidents of violence against the members of these communities do take place of and on.

India is a welfare State. It is committed to the welfare and development of its people in general and of vulnerable sections in particular. Equality of status and opportunity to all citizens of the country are guaranteed by the constitution of India which also provides that no individual shall be discriminated against on grounds of religion, caste or sex. Fundamental rights and specific provisions, namely, Articles 38, 39 and 46 in the constitution of India stand testimony to the commitment of the State towards its people. The strategy of the State is to secure distributive justice and allocation of resources to support programmes for social, economic and educational to advancement of the weaker section in general and those of Scheduled Casts and Scheduled Tribes.

7.2 Constitutional Rights:

The Indian Constitution vide Article 15 lays down that no citizen shall on grounds of religion race , sex or place of birth be subjected to any disability or restriction. It also guarantees that every citizen shall have equality of status and opportunity.

7.3. Legal Rights:

To Uphold the constitutional mandate and to safeguard the interests of this section of the society, Special social enactments

have come into force from time to time including privileges by way of reservations for them

The major legal enactment sponsored by Centre is:

- (i) Protection of Civil Rights Act, 1955; and
- (ii) SC/ST (Prevention of Atrocities) Act, 1989

The Protection of Civil Rights Act, 1955 was enacted in furtherance of Article 17 of the Constitution by which untouchability was abolished and its practice in any form is forbidden. Further, in order to check and deter crimes against SC/STs by persons belonging to other communities, the Scheduled Casts and Scheduled Tribes (Prevention of Atrocities) Act, 1989 was brought into force from 30th January, 1990. These enactments have extended the positive discrimination in favour of SCs and STs to the field of criminal law in as much as they prescribe penalties that are more stringent than for corresponding offences under Indian Penal Code (IPC) and other laws.

In addition, in pursuance of the constitution 65th amendment Act, 1990, National Commission for SCs and STs was constituted w.e.f. 12th March, 1992 with wide functions and powers of Civil Courts to take up matters which are of vital importance for socio-economic development of SCs and STs.

7.4 The Crimes Identified under the Indian Penal Code (IPC) and Local & Special Laws):

- (i) Murder

CHAPTER-8

SUICIDAL DEATHS

8.1 General :

According to Oxford dictionary, 'suicide' means 'the act of killing oneself intentionally'. The 'suicide' word has its origin from Latin word 'sui' (of oneself) plus 'cardere' [kill]. It is a step which is taken by one normally in an emotionally or mentally weak moment when he or she feels coping with life is impossible

The number of Suicides reported in Himachal Pradesh during 2013 was 554 as against 528 in 2012 indicating an increase of 4.93%.

Kangra District recorded the highest number of suicides during 2013 (152) followed by Mandi (62) and Shimla (56). Remaining districts reported below 50 cases of suicides. Suicides during 2004-2013 is presented in Chart 8.1

CHART 8.1

SUICIDE CASES (MALE AND FEMALE) DURING 2004-2013

District-wise break-up of suicides during 2013 is available in Table 8.1. Comparative Suicidal deaths for the last 10 years (2004-2013) including male and female is depicted in Table 8.1. Chart 8.2 depicts the district wise incidence of suicidal deaths during 2013.

CHART-8.2

8.2. Suicide Rate per lac persons:

The following table shows district-wise suicide rate per lac

population during 2012 & 2013:-

Distt	Population (2011)	Suicide Cases		Rate per Lac	
		2012	2013	2012	2013

GRP	0	0	3	0	0.04
Total	6856509	528	554	7.70	8.08

From the above table it is revealed that there has been an increase of over 4.92% (from 528 to 554) in suicide cases during the year 2013 over the year 2012. The major increase has been witnessed in the districts of Kinnaur (from 1 to 6), Baddi (from 17 to 42), Solan (from 28 to 43), Mandi (from 56 to 62) and Sirmaur (from 31 to 39). However, there has been decrease in Hamirpur (from 66 to 48) Shimla (from 59 to 56) and Bilaspur (from 43 to 29).

8.3 District-wise percentage of suicide cases:-

The following table shows the percentage of suicide cases as compared to the percentage of the population of the district:

District	Population Percentage	Percentage of Suicide Cases	
		2012	2013
Baddi	3.74	3.22	7.58
Bilaspur	5.57	6.44	5.23
Chamba	7.57	4.55	3.61
Hamirpur	6.63	12.50	8.66

Solan	4.67	5.30	7.76
Una	7.60	7.77	7.76
GRP	0	0	0.54

The analysis of the above table reveals that percentage of suicide deaths in the districts of Baddi, Hamirpur, Kangra and Solan has remained higher than the percentage of the population of the district concerned the years 2013. In other words, these 4 districts are more prone to suicidal deaths as compared to other 9 districts of state.

8.4 Suicide Cases:- (Males Versus Females):

The following table gives District-wise number of males and

females committing suicide and their percentage to the total cases for 2012 and 2013:

It is revealed from the above table that the number of males committing suicide outnumber the females (67.5 males as against 32.95% females in 2012 and 65.7 % males as against 34.3% females in 2013).

It is further revealed that there has been increase of 2.82% in the male suicide cases (from 354 to 364) as against 9.19 % increase in the number of female suicides (174 to 190) during the year 2013 as compared to the year 2012.

8.8 Age Profile of Suicide Victims:

The following table gives the details of age groups of the suicide victims for the year 2012 and 2013:

Age Group	2012				2013			
	Male	% against Total	Fe-male	% against Total	Male	% against Total	Fe-male	% against Total

Total:-	354	67.0	174	33.0	364	65.70	190	34.30

The analysis shows that the age profile of most of the suicide victims both men and women falls into two age-groups of 15-29

and 30-44 years. Thus it can be said that most people who commit suicide do so in the prime of their lives between 15 to 44 years of age (67.8% in 2012 and (73.46% in 2013) This fact can be co-related to the reasons for suicide i.e. 'family problems' and 'illness'.

Total:-	354	67.05	174	32.95	364	65.70	190	34.30

Another aspect that is brought forth is that those who committed suicide were mostly in service profession in case of males and **housewives** in the case of females. (in 2012, 10.98% males were in service and 15.15% females were housewives and in 2013, 11.56% males were in service and 15.88% females were housewives). This fact can again be co-related to the age profile falling within 15-44 years.

The means adopted for committing suicide range over several methods from drinking too much to jumping from high places. However, the maximum number have committed suicide by **consuming poison**. (30.91% in 2012 and 51.26% in 2013.) This is followed by hanging (32.95% in 2012 and 32.31% in 2013).

CHART-8.9

8.11. Conclusions:

- (i) There has been an increase in the suicide cases, both in male & female cases during the year 2013 as against the year 2012.
- (ii) The districts of Kangra, Hamirpur, Shimla and Mandi were found more prone to suicidal deaths as compared to the other 9 districts of the state.
- (iii) The major cause of suicides remained 'family problems' followed by 'Illness'. 'Unemployment' is certainly not one of the major causes of suicides as it contributes less than 10 % to total suicide cases.
- (iv) Most of the male suicide victims were in service and female suicide victims were house-wives. The

farmers/agriculturists do not form major group of suicide victims as this group contributes only 5% to total suicide cases.

- (v) The majority of the suicide victims were married and in the age group of 15 to 44 years.
- (vi) The most popular means for committing suicide remained taking 'poison' followed by 'hanging'.

During the year 2012, 37.27% road accidents involved light vehicles (LMVs). District wise comparative statement of road accidents during 2012-2013 is presented in Table-9.2. 2981 road accidents were reported during the year 2013 out of which 2245 fatalities, 736 accidents were fatal.

9.2 Accidental Deaths :

CAR/JEEP/TAXI/TEMPOS were responsible for 37.6% of accidental deaths during 2013. Out of 1056 persons who died due to accidents, as many as 457 were involved in accidents with these type of vehicle. Table-9.2 gives details of road accidental deaths for the year 2013 with break-up of types of vehicles and due to other reasons. Shimla District reported the highest (153) accidental deaths followed by Mandi (139), Sirmaur (137) and Kangra (118). Chart-9.1 depicts road accidents occurred during 2004–2013.
